## Skills

---

- Problem solving
- Innovation management
- Team building
- Processing engineering
- Sales analysis
- Communication skills
- Analytical thinking

## Projects

---

- **Forensic Genetics (Genetics Of finger print)**

- Finger print pattern was collected from one hundred household consisting of four hundred members, to check for position of pattern on a finger among members of a family and to check which pattern is the dominant and on which sex gender.
- Result: No individual share the same fingerprint, not even identical twins. Offspring have the same print pattern as that of the parents and share this pattern types among siblings but variation occurs in finger position.

- **Bio-Fortified Cassava Flour**

- Cassava of different varieties was milled and hydrolyzed to reduce glucose content(starch) and different vitamin and proteins premix were used for fortification.

Client: Diabetic patients, baking industries and the general public.
