No 19 Adedayo Ogunsanya Street, Ivy Homes, Ikota Villa Estate,
Lagos, Nigeria.

Experience

Digital Bananas Lagos, Nigeria.

2019-03-04 - 2020-03-20

Data Analyst

Responsibilities:

- Ensured data accuracy and validation by the implementation of data integrity queries using Python scripts.
- I assisted the data engineers in building complex SQL reports to audit N 320 million of pay and benefits for over 100 individuals.
- Developed databases using MS SQL, tools, queries and reports for analysing and drawing of data insights.
- Utilised tableau, Power BI and other tool sets for data visualization, dashboards, intelligence and analysis.
- Optimized inventory by implementing new safety stock methods designed to reduce excess by 10% with no effect on service levels.
- Reported bi-monthly data and analysis findings to upper management for decision-making.

Highland Microfinance Bank, Jos, Plateau State, Nigeria

2017-11-20 - 2019-01-22

Data Analyst & IT Support

Responsibilities:

- I performed data collection, cleansing and manipulation for the drawing of data insights across all departments.
- I worked closely with the debt recovery officers by analysing banking data using tools like silver blade 2.0 and Excel for screening and approving loans for customers and businesses.
- Proposed solutions to boost system efficiencies, leading to a 10% reduction in operational costs.
- I generated detailed reports monthly and quarterly for summary documents used for audit, compliance reporting and presentations.
- Streamlined case report form payments and the approval process by simplifying reports and eliminating paper approval forms.
- Updated banking records and data with a 98% on time rating preventing payroll mispayments and profile discrepancies.
- Facilitated file sharing and tracking correspondence using Microsoft SharePoint and Outlook.
- Coordinated with an external tech company to monitor the data integration and migration process to a new cloud banking application.

American University Of Nigeria, Yola, Adamawa State, Nigeria

2016-11-21 - 2017-10-15

Data Analyst Intern & IT Assistant

Responsibilities:

- I performed data collection, scrubbing and manipulation techniques across all departments for the drawing of insights.
- I created, tracked and monitored student data for the use of the 500 computer e-library facility.
- I worked closely with the accounting department in manipulating accounting data and creating reports using Microsoft Excel.
- I applied excel functions like the VLOOKUP to organise and create pivot tables used for reports and presentations.
- I was responsible for training 20 students on how to use Microsoft Excel to an intermediate level.
